PDF, DOC, PDB, XPS Born in the City. Born in the City is often used to describe a child whose parents are poor and who does not come from a wealthy family. It can also be used to describe a child who comes from a poor family but is brought up in a rich environment. A "born in the city" image of a chocolate brown bunny holding a carrot on a string and standing in front of a mound of fresh dirt. It is a small, hollow bunny shape that has a closed mouth, rounded ears, and brown coloring. This design is rather simple, but it's one of the most well-known bunny images. The bunny is one of the most children, I grew up with a bunny as a symbol of the Easter bunny. For Halloween, I dressed up as a bunny. One of the earliest bunny images was made in Germany in the 1920s. It was created by designing a bunch of dots on a black line. The dots were then colored in with a black marker. Then the bunny was cut out of heavy cardstock. The first known rabbit was made by a Dutch printer named Simon Janszoon. It is called the "Bunny Man" and was created in 1634. In 1860, the first book on bunny rabbits was published in Germany. It was called The Book of the Furie and was a collection of poetry dedicated to bunnies. The first known English-language bunny book was f678ea9f9e
